Introduction

The aim of the conference is to understand how Sub-Saharan African countries have been managing the Covid-19 pandemic and their economic growth recovery plan.

The focus is to mainstream managing the pandemic into economic growth and development policies in Sub-Saharan African countries. It is our expectation that the outcomes of the conference would help to shape policy making in these countries.

Conference Sub themes:

- Economic recovery in the midst of the Covid-19 pandemic
- Achieving economic growth and development during the Covid-19 pandemic era
